

PYSCHOLOGIST (8 to 24 hours, payroll or self-employed / ZZP)

Inter-Being Psychologists was founded in October 2012. By now we have locations in Amsterdam, Groningen, The Hague and Delft. Our international team specializes in treating expats and international students in various languages. We work with a wide range of problems, including anxiety and mood disorders, trauma, burnout, stress, emotion regulation, cultural adjustment, identity issues, work and relationship-related problems and existential issues. In addition to individual and couples therapy, we will shortly start with group sessions and workshops. Our way of working is primarily humanistic and client-centered. However, every psychologist at Inter-Being integrates elements from other forms of therapy in their own way.

At Inter-Being Psychologists we offer short and medium-term therapy trajectories within the General Basic Mental Health Care ('Generalistische Basis GGZ'). The treatments are reimbursed via Dutch basic health insurance, European Insurance Card as well as other foreign insurance policies. We work without contracts with health insurance companies. In this way we have more freedom to personalize the treatment process to fit each client. In addition, we also offer counseling and coaching that can be reimbursed by clients themselves or by their employer.

We are looking for a psychologist to join our team in Amsterdam and Groningen due to an increase in referrals to our practice.
